I am back in the Snake River Room. All hooked up, successfully connected to internet, and ready to go. Got my cup of tea and all is well ☺

Wendy - are you wanting one of these folks to travel to Durango or Denver? Or just review info from where they are? Johanna

I will forward you some emails I sent to Richard graham asking to get the two eco guys below on board. They need some sort of formal request. Richard had told me he started the process when he was EU lead, so you may want to check with him.

Subject: Ecorisk support?

Hi Wendy,

I hope you, Dan and Deb are managing the stress OK. I know it's a very tough environment to work, let alone think within. I'm working on staffing availabilities for the next few weeks. We spoke earlier this week about the Region requesting risk assessment support, through the ICS (213 RR), for support by David Charters and/or Mark Sprenger. Could you let me know if that is still a need? They have not heard anything and I have not seen any requests for them. We are happy to support you as best we can.

Thanks,

Marc
